

TOWN OF HOLLAND STORMWATER FIVE YEAR PLAN

The Town of Holland, La Crosse County, has 47.79 miles of Town Roads. Each road receives regular asphalt maintenance. In addition, the Town provides continual maintenance for ditching and culverts. The Stormwater Utility Commission was established in 2021 to implement practices to mitigate multiple flooding events by updating and maintaining Town infrastructures.

Culverts

In 2021, the Town contracted with the La Crosse County Zoning Department to establish a culvert inventory. Maps and an inventory spreadsheet were finalized in the spring of 2022. The inventory identified 195 small structure culverts listing pipe shape, width, length and a rating of the condition of each culvert. The Town purchased a tablet as a tool for the Town Crew to assist with inspecting and maintaining the infrastructures.

Stormwater work

As part of the Town's establishment of a Stormwater Utility in 2021, work began culvert and ditch maintenance on a rotating basis. Culverts and ditches are inspected and maintained during the Town crew spring review process and after significant rain events. Any culvert failures are repaired as needed either with assistance from the La Crosse County Highway Department, in-house by the Town crew or through contractors.

2026

- Pedretti & Country Ave – ditching by the town crew. Culvert blow out.
- Gaynor Addition – Lower driveway culvert (no cost).
- Country Estates – blow out culverts and French drains. Inspect private culverts.
- Country Estates, Bice Addition, Fieldstone Addition, Brentwood Addition, Prairie Woods and Prairie Meadows - shouldering where water collects.
- Walnut Street – new culvert, ditch, blow out culverts.
- Moe Coulee Road, Flaten Road & Casberg Coulee Road intersection – new culvert, ditching, road patch.
- W. Olson Road – new culvert, road patch.
- N8103 Flaten Road – new culvert, road patch.
- N7440 Casberg Coulee Road – new culvert, road patch.
- Christopherson Road – culvert is being undermined, possible replacement.

2027

- Casberg Coulee Road – new culverts (2 or 3), road patching.
- N7071 Elizabeth Drive – new culvert, ditching.
- Fieldstone Addition – inspect culverts.
- Country Estates (3) - Finish lining culverts.
- Country Estates - Finish shouldering.

2028

- Flaten Road – new culverts (2 or 3).
- Lancer Estates (off Holland Drive) – inspect culverts, ditching.
- Holland Airpark – inspect culverts, ditching.
- Amsterdam Prairie Road – inspect culverts, ditching.

2029

- Meadows Addition (north of Old 93) – inspect culverts, ditching.

2030

- Prairie Woods and Prairie Meadows Additions – inspect culverts, ditching.
- August Prairie – inspect culverts, ditching.
- Sylvester Road, Evans Valley Road and Holseth Road – inspect culverts, ditching.

Funding:

The Town of Holland will apply for funding grants whenever possible. The Town received grant funds from La Crosse County in 2023 for the Gaynor Addition drainage project.
